Megakaryocytes have long been known as the precursor cell of blood platelets in mammals, but research has traditionally been hindered by the difficulties encountered in their isolation, since they constitute less than 1% of all bone marrow cells. **Molecular Biology and Differentiation of Megakaryocytes** assembles the contributions of authorities from many areas of cell biology in order to provide an up-to-date, critical account of recent developments in the field that have led to the considerable expansion of research involving megakaryocytes. The book also covers technological advances that have opened up new vistas in the study of megakaryocytes—defining their roles in platelet production, hematopoietic regulation, and a variety of platelet and vascular disorders.

Progress in Clinical and Biological Research, Volume 356

Proceedings of the Third International Conference on Megakaryocytes: "Megakaryocytes: Cellular and Molecular Biology" Held at Conseil Régional de Bourgogne, Dijon, France, July 23-27, 1989

ISBN 0-471-56822-8 • May 1990 • 386 pages, \$98.00

Philadelphia, Pennsylvania

Radiolabelled Cellular Blood Elements

examines the widespread clinical applications of In-111-labelled blood cells, and describes recent research that has led to the development of new radioactive agents for labelling blood elements both *in vivo* and *in vitro*. This comprehensive book presents some 15 new agents that have been successfully applied in the scintigraphic imaging of abnormal lesions caused by a variety of disorders.

The text discusses the newest advances in the field and effectively conveys the depth of knowledge gathered during the past several years. Chapters dealing with basic aspects of radiolabelling are balanced by articles focusing on practical application techniques under experimental as well as clinical conditions.

Progress in Clinical and Biological Research, Volume 355

Proceedings of the 5th International Symposium on Radiolabelled Cellular Blood Elements, Held in Vienna, Austria, September 10-14, 1989

ISBN 0-471-56826-0 • June 1990 • 406 pages, \$98.00

All orders should be sent to: **John Wiley & Sons, Inc., Eastern Distribution Center, 1 Wiley Drive, Somerset, NJ 08875.** Telephone: 1-800-225-5945 or (201) 469-4400, Fax: (201) 302-2300, Telex: 833434. For faster ordering service: Please call Toll-Free 24 hours a day: 1-800-526-5368.

In Europe, the United Kingdom, and the countries of East and West Africa order from your bookseller or from: **John Wiley & Sons Limited • Baffins Lane • Chichester • Sussex PO19 1UD • England.**
